

## Short-Length Drill Bit 135 Degree Point, 1/4" Size

1-11 Each \$2.60  
12 or more \$2.21  
2896A25

Size	1/4"
Size Decimal Equivalent	0.2500"
Overall Length	2 1/2"
Maximum Drilling Depth	1"
Shank Type	Round
Shank Diameter	1/4"
Length Class	Short Length
Point Angle	135°
Point Style	Split
Material	High-Speed Steel
Finish	Black Oxide
For Use On	Steel, Iron, Stainless Steel
Bit Style	Spiral Flute
Flute Direction	Right Hand
System of Measurement	Inch
Individual/Set	Individual

These bits provide maximum rigidity for drilling straighter holes than standard-length drill bits. Also known as screw-machine and stub-length bits.

A split point keeps the bit centered without a pilot hole.

Bits with 135° point angle produce smaller chips than 118° point to prevent clogging.
