```
1.  Right click on the Carbide Zeroing.AHK file and choose the **OPEN WITH** option
2.  Choose **Notepad**. If it is not on the list click on the **Choose another app** option and find Notepad.

3.  In Notepad, under the edit menu click on **Replace**.
4.  In the **Find what** box copy and paste this text:  **Send, {Tab}{Tab}**
5.  In the **Replace with** box copy and paste in :   **Send, {Tab}{Tab}{Tab}**
6.  Click the **Replace All** button

7. Under the File menu select **Save As**.
8. Using the drop down box change the **Encoding** to **ANSI**
9. In the **File name** box change the name of the file to preserve your original file in case something goes wrong. Then Save the file.
10. **After you have restored** Carbide Motion to the earlier version (413) your new file created here should operate just as it did before.
